

KISS REBREATHERS

PRESS RELEASE:

KISS REBREATHERS IS NOW WORKING WITH DIVESOFT COMPUTERS

KISS Rebreather LLC is proud to announce that all KISS diving systems are now available with the Divesoft CCR decompression computer and PPO2 display/bottom timer.

At KISS Rebeathers, we make a point of listening to our clients and do our best to incorporate the products that they wish to use. We've been hearing good things about Divesoft and decided that it is time for KISS to incorporate these items into our offered display systems.

The Divesoft Freedom Closed Circuit computer, and the Divesoft Freedom Closed Circuit Bottom Timer may be used on any KISS diving system, as either the primary or secondary display.

Freedom Closed Circuit Computer: \$ 869.60 USD

Freedom Closed Circuit PPO2/Bottom timer: \$ 761.70 USD

The above retail prices include: cable, protective screen, and connector plug.
